Workshop 7

Valorising the Innovation Capacity of the Firm

The value of intangible assets in the knowledge economy

The European Commission (DG Enterprise) has endorsed the decision to carry out a “policy review workshop” on the above theme. In order to prepare this exercise properly, we kindly ask you to fill in the following questionnaire. Your response will assist us in identifying the structures in your country and current developments within the theme, in addition it will provide input into identifying the policy practitioners that may benefit from participation in such a workshop. **Please read the WKS 7 scoping paper first**, which outlines the specific considerations for the topic and should act as a guide to what type of answers we are looking for from the questionnaire. As one of 33 country briefings we would appreciate your answers to be as concise as possible. If you have any questions please contact:

Jan-Frens van Giessel, Technopolis BV, Amsterdam, The Netherlands

Telephone +31 (0) 20 535 22 44

E-mail jfvg@technopolis-group.com

The workshop will address two related themes; the valuation of intangibles (e.g. IP) and the certification of Innovation Management Techniques. Your input is mostly requested on the latter theme but we also ask for your input on the issue of valuation of intangibles.

Definition of Innovation Management Techniques and Certification

Innovation does not always mean employing the very latest cutting-edge technology. On the contrary, it is less a question of technology and more a way of thinking and finding creative solutions within the company. In this context, innovation management techniques (IMTs) can be seen as a range of tools, techniques and methodologies that help companies to adapt to circumstances and meet market challenges in a systematic way. We define an IMT (Innovation Management Technique) to be any methodology or tool which facilitates the management of innovation within firms. An Innovation Management Certificate is a label which states that the certified company has put in place “good management practises”, incorporated good Innovation Management Techniques.

Q 1c. Provide name and short description (max 10 lines) of the most interesting policy programme in the area Innovation Management Techniques (if available in your country). Example 1 Name of programme Description Example 2 Name of programme Description		
Certification of Innovation Management		
Q 2. The challenge this workshop addresses is the development of a certification of innovation management competences. This requires organisations setting the standards and disseminating this certification as a credible quality label. <i>Are there any public or private initiatives aimed at promoting the creation of an innovation management certificate? If yes, please give example(s) and provide name and short description (who has initiated this, how does it work?, where can we find information?)</i> Example 1 Name of programme Description Example 2
