IPI - INSTITUTE FOR INDUSTRIAL PROMOTION

Main activities of the organisation:

IPI is a technical Agency of the Italian Ministry of Economic Development, specialised in the definition, implementation and evaluation of competitiveness policies and programmes to the benefit of industry (www.ipi.it). Concerning innovation, IPI is a key player in:

supporting Industrial Innovation Projects in specific strategic areas

promoting government-research-industry partnership

VALPRIN

strengthening patents and trademarks market

promoting innovation in the less developed Italian Regions

fostering transnational cooperation among innovation stakeholders
