

Bruno Lindorfer

Mr. Bruno Lindorfer is managing director of TMG responsible for business area Innovation & Technology since Oct. 2008. He studied at the Technical University Vienna, Austria, and holds a Master in mechanical Engineering. He has professional management experience in industry and industrial research for many years due to several leading positions at the VOEST-ALPINE, ENGEL-Maschinenbau and SIEMENS VAI Metals Technologies, in particular in the field of research, technology, engineering and innovation, including innovation management. Bruno Lindorfer has been actively engaged in the Upper Austrian cluster policy since many years, e.g. in the advisory body of "Clusterland Oberösterreich GmbH", member of group of experts involved in development of the strategic programme "Innovative Upper Austria 2010". He has been active in several strategic groups at the regional and national Austrian level and the European Commission level, e.g.: Member of the Working Group #1 of the Technology Platform "Steel" ("ESTEP") of the EU; Member of the VDI, Germany (Verein Deutscher Ingenieure); Chairman of the R&D Panel of the Upper Austrian Chamber of Commerce (2003 until 2008); Associate Lecturer for "Innovation Management" at the Johannes Kepler University in Linz/Austria. He applied for participating the ECPG and was recommended by the Federal Austrian Ministry of Economic and Labor.
